

MUNGO - an outstanding new product

Author: Ralf Diesing<r.diesing@schauenburg-mab.com>

"MUNGO" is the name of a new product line.

It stands for a new generation of separation machines that focus on easy setup, good performance and a very competitive price.
Jobsite results of the first machines showed great promise.

The new product line MUNGO offers you cost-efficient and robust machines with a capacity of up to 300 m³/h. In the near future you will find more information about the MUNGO on our homepage.

If you are interested in these machines please send an e-mail to
mail@schauenburg-mab.com

We will be pleased to give you detailed information and prepare a quotation that perfectly meets your requirements!
